Electronics Guide for Purple Line Trailer mover spare parts

- Each Electronics Control unit is designed to work with its corresponding remote style.
- Each Electronics set can work with any trailer mover but you must have the correct corresponding remote.
- Each system has a unique initiation/ syncing process and its own error code system.

Classic Electronics – Pre-2021

- Remote control has a grey or orange face.
- The handset does not have Auto-engage buttons.
- The control unit is the larger, silver/grey style shown in the electronics reference guide.

Basic Electronics — Current Standard System

- Remote control has additional Auto-engage buttons.
- The control unit is smaller, with a dual-color design and an external antenna.

Smart Electronics — Premium System

- Remote control has a distinctive joystick and screen.
- The control unit is a compact design, similar in size to the Basic control unit.
